About MOMAC

A World-Class Operation and Maintenance Service Provider for Saudi Arabia and the GCC Markets. Dedicating to reducing the cost of operations and minimizing downtime for our clients in Critical Industries: Construction, Mining, Oil & Gas Onshore and Offshore Operations.

Our Story

Over a Decade in civil engineering, construction, and managing rig well sites for ARAMCO. Our CEO and The Team at MOMAC identified a market gap in providing:

- Manufacturing of Saudi-Made Electrical Equipment
- Saudi Made Parts
- Quality and Responsive Service in the Field
- Quick Turnaround in Repairs
- Competitive non-OEM Service Price
- Multi-brand Fleet Maintenance Support.

Starting 2022 we built Our First Shop in Saudi Arabia and started with Certified Technicians with over 20yrs Experience in The Americas, to service the Oil & Gas Construction Sector in Jafurah, Al-Ahsa

04

Chairman Message

MOMAC is unique in the quality, know-how, and passion that we deliver through our employees and services. The company was established to fill a market gap between the services offered by dealers and service providers in the industrial sectors across various cities in the Kingdom of Saudi Arabia.

We are professionals in SKD (Semi Knocked Down), CKD (Completely Knocked Down), and MRO (Maintenance, Repair, and Overhaul) services with proven experience and a clear strategic focus. Our operations are designed to support local industry by delivering high-quality assembly and maintenance solutions that meet or exceed international standards.

The company leverages innovative technology to manufacture and restore electrical and mechanical equipment, promote metal recycling, and offer clients with high-quality, locally restored 'Made in Saudi' parts." By reducing dependence on imports by utilizing in-house production, we deliver components that match the lifespan and performance of brand-new parts—at a significantly lower cost.

As a forward-thinking company aligned with the goals of Vision 2030, we aim to become one of the leading manufacturers within the Kingdom of Saudi Arabia, actively supporting the localization of the defense industry and enhancing national industrial self-sufficiency. Our mission is not only to provide world-class services, but also to help build a robust, innovative, and sustainable industrial base for the future.

Abdulaziz AlMoosa
Chairman

Our Vision

To become the leading provider of Power Generation, mining, marine, and construction solutions across Saudi Arabia and neighboring regions through our unwavering commitment to innovation, quality, and customer satisfaction.

Our Mission

At MOMAC, our mission is to empower clients with advanced equipment, cutting-edge technology, and exceptional services that drive productivity, enhance safety, and support environmental sustainability. At the same time, we champion local manufacturing within Saudi Arabia. We achieve this by continually investing in our people, processes, and innovative solutions, and by building strong, lasting partnerships with our stakeholders and communities.

We Provide World-Class OEM Quality Service **and Warranty in All of Our Work**

→ **MANUFACTURING**

"We specialize in manufacturing, assembling, and servicing electrical equipment for industrial and military use, delivering reliable, efficient, and durable power solutions backed by years of expertise.

→ **REPAIRS**

Our Pilot Shop provides a contamination-free environment for repairs, with GCC Ltd rated #1 in Safety in 2023 by Aramco

→ **MAINTENANCE**

"Our certified technicians provide top-quality preventive and corrective maintenance services, available 24/7, ensuring reliable support for our clients in their own facilities, or if they prefer, at our shop, thus providing flexible options that meet their needs wherever they are.

→ **OVERHAULS**

Our Team performs Complete Overhauls of Engines, Transmissions, and Major Component for Construction Equipment, Gensets, Mining Equipment.

06

OUR SERVICES

Momac provides 24/7 on-call support and specialized repairs, extending equipment life while reducing costs by up to 35%, ensuring maximum productivity even in the toughest environments.

- **Inspection and Troubleshooting**
- **Component Rebuild Center**
- **Equipment Rebuild**
- **Manufacturing and Assembly**
- **Overhaul and Services**
- **Repairs**

Reliable Solutions

We specialize in manufacturing and assembling high-performance electrical equipment—such as generators—tailored to diverse operational needs, from primary power supply to emergency backup. Leveraging cutting-edge technology and OEM-compliant standards, we adhere to the highest industry standards to ensure quality and reliability.

MOMAC also delivers comprehensive Maintenance, Repair, and Overhaul (MRO) solutions for heavy-duty equipment across industries, including upstream operations, infrastructure projects, and power generation. Our certified technicians troubleshoot and repair equipment in the most challenging environments, “...backed by 24/7 on-call support to minimize downtime for clients operating critical missions.

MOMAC executes major repairs on all equipment brands, adhering to OEM guidelines and offering warranty-backed guarantees for shop-completed work. We optimize costs by combining certified OEM and aftermarket parts, allowing clients to choose throughout the repair process. Our team provides end-to-end remanufacturing for engines of all sizes, extending equipment lifespan with OEM-equivalent warranties and reducing field downtime.

We revive idle or decommissioned equipment through expert rebuilding, reclaiming asset value and productivity for clients—returning idle assets back into operational service.

OUR
PROJECTS

→ **Comprehensive Maintenance & Power Solutions**

MOMAC delivers comprehensive disassembly, repair, and assembly services for critical equipment. Our expertise spans top-end, in-frame, and complete overhaul services that ensure operational readiness for demanding environments.

→ **Rotating Equipment Excellence**

We specialize in major maintenance for compressor and turbine units, with active participation in pre-commissioning committees to guarantee seamless transitions from planning to operational stages.

→ **Heavy Equipment & Drilling Proficiency**

From concrete pumps and P&H cranes to heavy trucks and trailers, our team maintains robust fleets. We excel in servicing 1500–3000HP land drilling rigs, optimizing performance and reliability for upstream operations.

→ **Cross-Sector Expertise**

With certified technicians and ISO-compliant processes, we execute precision overhauls of engines, transmissions, and electrical equipment, extending lifespans at costs lower than OEM replacements.

→ **Offshore and Onshore Expertise**

Major maintenance activities, disassembly and assembly of engines, inspections of motor-compressor units for reactivation, precise alignment of motor-compressor pairs.

→ **Power Generation Leadership**

MOMAC manufactures and assembles high-performance electrical equipment for prime and backup power across industries. Our solutions combine cutting-edge technology with OEM-compliant standards, ensuring 24/7 reliability for a wide range of operations.

BRANDS SUPPORTED

Some of Our Brands Supported

Our expertise adheres to the exacting standards and tolerances set by manufacturers such as BOKUK, DRESSER-RAND, ARIEL, WAUKESHA, CATERPILLAR, and WHITE SUPERIOR. "Whether for a top-end rebuild or a complete unit overhaul, we have you covered."

OUR CLIENTS

Some of Our Clients

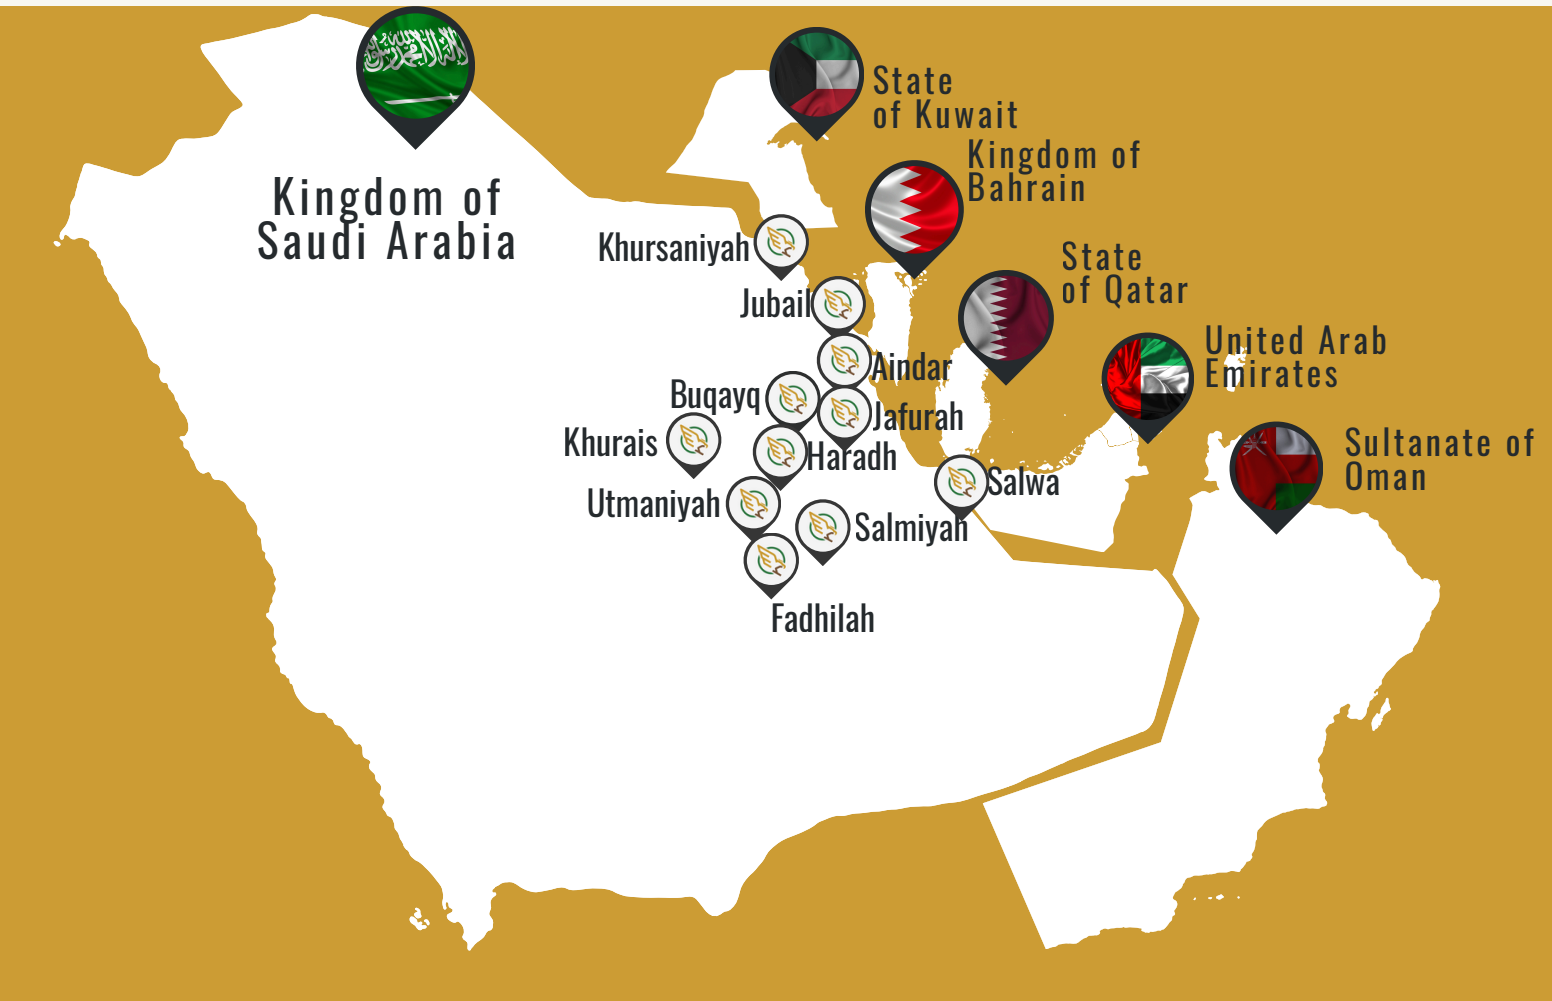

With a wealth of experience, our technicians have a proven track record in equipment assembly and maintenance for major players in the oil and gas sector as well as other industrial activities." Their extensive expertise is your assurance of top-quality service, making us the trusted choice for all your maintenance requirements.

Company Locations

+17 Work Fronts

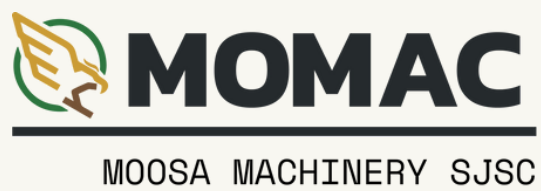

Actively managing over 17 projects simultaneously, our PMT and site supervision teams excel in ensuring safety during execution.

We offer our services to the Member States of the Cooperation Council for the Arab States of the Gulf (GCC).

Our Facilities

- Component Rebuild Center
- Engine Rebuild Center
- Jafurah Onsite Shop
- Machine Shop (DOT)
